Version Number: 1
Version date: 20th March 2026

Changes introduced in CDS Release 5.1.0.1

Release Date: 8th April 2026

Version: 1.0
20th March 2026

Version Number: 1
Version date: 20th March 2026

Change Log

Version	Version Date	Changes
1.0	20th March 2026	Initial Release

Item No.	CDS Change	Movement Type	Declaration Completion Instructions
1	Additional Procedure Code F44	Import	**Affected Declaration Categories: H4** **Affected Declaration Types: A, D, Y, Z** When Additional Procedure Code (APC) 'F44' is entered in Data Element (DE) 1/11, a Valuation Method must also be entered in DE 4/16. The Valuation Method entered in DE 4/16 can be any of the 6 valid Valuation Methods listed in the Declaration Completion Instructions for DE 4/16. If APC 'F44' is declared in DE 1/11 and DE 4/16 does not contain a Valuation Method, the declaration will be rejected.
2	Additional Information Code TOR01	Import	When Additional Information (AI) Code 'TOR01' is entered in DE 2/2, then DE 1/11 must be completed with one of the following APCs: 'C01', 'C42', or 'C43'. If AI Code 'TOR01' is entered in DE 2/2 and DE 1/11 does not contain one of 'C01', 'C42' or 'C43', the declaration will be rejected.
3	Container Identification Number	All	When completing DE 7/10 with Container Identification Numbers, a maximum of 99 may be entered at header level, and 99 at goods item level for each goods item. If more than 99 Container Identification Numbers are entered in DE 7/10 at either header or item level, the declaration or CCR will be rejected. This is a known issue and will be added to the Known Error Log.

Item No.	CDS Change	Movement Type	Declaration Completion Instructions
4	Document Code 'C673'	All	Document Status Code 'XW' is no longer valid for use with Document Code 'C673'. If Document Code 'C673' is entered in DE 2/3, and Status Code 'XW' is used, the declaration will be rejected.
5	Document Code '920C'		Document Status Codes 'XA' and 'XB' are no longer valid for use with Document Code '920C' If Document Code '920C' is entered in DE 2/3, and the Status Code is either 'XA' or 'XB', the declaration will be rejected.
6	Commodity Codes	All	There have been instances of commodity codes declared to CDS beginning with '0000'. These commodity codes are not valid and entering them in DEs 6/14 and 6/15 will cause declarations to be rejected. In order to avoid declarations being rejected, please ensure that only commodity codes from the UK or NI Online Tariffs are declared on CDS.
7	Total Number of Packages	All	The Total Number of Packages declared in DE 6/18 at header level cannot be a negative amount. Only a value greater than or equal to zero can be entered in DE 6/18. If a negative value is entered in DE 6/18, the declaration will be rejected.

Item No.	CDS Change	Movement Type	Declaration Completion Instructions
8	Quota Order Numbers	Export	**Affected Declaration Categories: B1, B2, B4, C1, C21E, C21EEIDR, B1MOU** Quota Order Numbers should not be declared in DE 8/1 on Export movements. If DE 8/1 is completed on an Export movement, the declaration or CCR will be rejected.
9	Good Location Codes	All	New Goods Location Codes have been added to the CDS codelist. Appendix 16 will be updated with the details of these GLCs ASAP after the release.

Due to the changes introduced in this release, there may be an impact on prelodged Declarations. Any prelodged Declarations that will arrive on or after the release date that will be affected by the changes in this document will need to be amended to be compliant with these changes or the Declarations will be rejected.
